

## **SPRINT 1**

### **BEFORE LOGIN THE REGISTRATION FROM :**

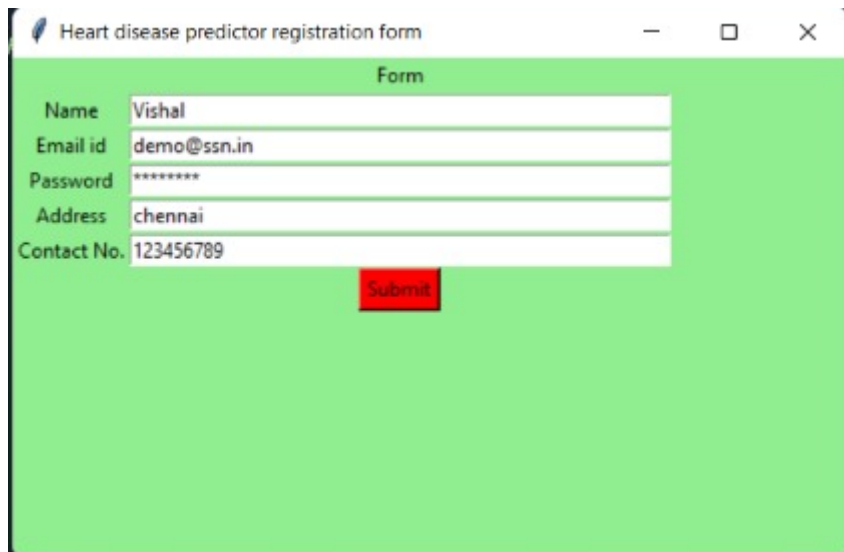

This is the graphical user interface where the user will enter his/her relevant details asked in the GUI below. the below image is just the blank GUI without entering the details.

The screenshot shows a web browser window with the title "Heart disease predictor registration form". The form has a light green background and a title bar with standard window controls. The form fields are labeled "Name", "Email id", "Password", "Address", and "Contact No.", each followed by a white input box. A red "Submit" button is located below the input boxes.

### **FORM FILLED WITH EXACT DETAILS :**

Here in the below image the user entered the details that are mandatory for registration purpose.

The screenshot shows the same registration form as above, but now it is filled with user details. The input boxes contain the following text: "Vishal" for Name, "demo@ssn.in" for Email id, "\*\*\*\*\*" for Password, "chennai" for Address, and "123456789" for Contact No. The red "Submit" button remains below the input boxes.
